

Call for Poster Submissions

AHRA Annual Meeting

Las Vegas, NV August 9-13

The theme for AHRA's poster session is "performance improvement." Entries must be related to something entrants have done at their facilities and they must show measurable outcomes. The topic should be broad, but provide specific examples – eg, patient satisfaction, new technology, Six Sigma, Lean, safety, turnaround times, process times, results reporting, costs, false negatives/positives. Posters typically include, but are not limited to, the following sections: title, introduction, materials and methods, results, conclusions, references, acknowledgments, further information. There are no restrictions on word count, but brevity is important to the presentation of information. Less than 800 words is ideal and graphics are beneficial.

Entrants are responsible for providing, hanging, and removing their own posters. Participants are not required to formally present the poster, but are encouraged to be on hand to answer any questions from attendees. A local printer in Las Vegas will be available if participants do not want to carry or ship materials from home. Poster dimensions must not exceed 36" x 48".

Submit electronic version of entry to Deb Murphy (dmurphy@ahraonline.org) by June 1.*

Entry will be reviewed for eligibility and notification of acceptance will be given by July 1. Meeting attendees will vote on site for the winning entrant(s). Winner(s) will be announced at the closing luncheon on the final day of the meeting: August 13. Prize(s) include free registration for the 2010 annual meeting. All posters will be made available on AHRA's Web site after the annual meeting so all members can benefit from the information presented.

*Does not have to be the final, designed version. A proposal is sufficient.
