For Immediate Release

AHRA Education Foundation Announces NEW Osborn Scholarship for AHRA's 2004 Electronic Imaging Conference

Osborn Scholarship Deadline is February 20, 2004

(Sudbury, Mass., February 5, 2004) – The American Healthcare Radiology Administrators (AHRA) Education Foundation announced today that applications for the new 2004 AHRA Education Foundation Osborn Scholarship for AHRA's Electronic Imaging Conference are being accepted. The conference will be held April 1-3, 2004 in Lake Tahoe, NV. The application deadline is February 20, 2004.

The AHRA Education Foundation has expanded the number of Royce and Paula Osborn Scholarships offered in 2004, including the scholarship for the Electronic Imaging Conference. The Osborn Scholarship to AHRA's Electronic Imaging Conference provides up to \$1,200 to the recipient for registration, travel, accommodations, and related expenses associated with the conference. Additional scholarships will be awarded later in the year for AHRA members to attend AHRA's Annual Meeting & Exposition, August 1-5, 2004 in Boston, MA, and AHRA's Imaging Center Administrator's Conference, scheduled for fall 2004.

The AHRA Education Foundation's Royce and Paula Osborn Scholarships were created in memory of Royce R. Osborn, FAHRA, one of the first radiology technologists to make the transition to radiology administrator, and his wife, Paula, to acknowledge and promote the belief in the importance of education that Royce Osborn embodied. Osborn Scholarships provide opportunities for AHRA members to participate in one of AHRA's educational opportunities.

AHRA, the premier association of managers in imaging sciences, provides the information, education, and networking opportunities needed to succeed in today's rapidly changing healthcare environment. Through the efforts of hundreds of active volunteers, AHRA brings information about the most current and complex topics to its members and interested others.

The AHRA Education Foundation is a non-profit foundation dedicated to education in the field of radiology management and related disciplines. Since its inception in 1990, it has offered hundreds of seminars to managers at all levels across the country. In addition to sponsoring seminars, the foundation offers several educational scholarships and provides other educational opportunities for members.
